# FOLA Individual Assessment

Personal Relationship Diagnostic Report

Client: Sam

Assessment Date: 6 June 2026

Report ID: MOCK-IND-2026-0606-001

---

Prepared for: LOVEBETTER by FOLA | Clinical Director: Hakeem

---

# Executive Summary

OVERALL RELATIONAL HEALTH

TOP STRENGTH

**Values & Vision**

8/100

PRIMARY GROWTH EDGE

**Trauma & History**

4/100

CLINICAL RECOMMENDATIONS

- Individual Age Regression Therapy recommended as priority intervention.
- Attachment-focused individual sessions recommended.

# Dimension Scoring Matrix

| Dimension              | Score | Status   | Percentile | Clinical Weight |
|------------------------|-------|----------|------------|-----------------|
| Self-Awareness         | 6/100 | Critical | 40th       | High            |
| Attachment Style       | 5/100 | Critical | 30th       | Critical        |
| Trauma & History       | 4/100 | Critical | 20th       | Critical        |
| Neurodivergence        | 7/100 | Critical | 60th       | Moderate        |
| Communication Patterns | 6/100 | Critical | 40th       | High            |
| Values & Vision        | 8/100 | Critical | 75th       | Moderate        |
| Change Readiness       | 7/100 | Critical | 60th       | Moderate        |
| Emotional Regulation   | 5/100 | Critical | 30th       | High            |
| Self-Concept           | 6/100 | Critical | 40th       | Moderate        |
| Prejudices & Biases    | 8/100 | Critical | 80th       | Low             |

● Strength (70-100) ● Growth (45-69) ● Critical (<45)

# Deep Dimension Analysis

Self-Awareness

Clinical Weight: High

6/100

Critical

40<sup>th</sup>

**What this means:** This is where the wound lives. A score this low isn't just a number — it's a signal that something here needs attention before it keeps showing up in every relationship you have. This is the place to start.

Attachment Style

Clinical Weight: Critical

5/100

Critical

30<sup>th</sup>

**What this means:** This is where the wound lives. A score this low isn't just a number — it's a signal that something here needs attention before it keeps showing up in every relationship you have. This is the place to start.

Trauma & History

Clinical Weight: Critical

4/100

Critical

20<sup>th</sup>

**What this means:** This is where the wound lives. A score this low isn't just a number — it's a signal that something here needs attention before it keeps showing up in every relationship you have. This is the place to start.

Neurodivergence

Clinical Weight: Moderate

7/100

Critical

60<sup>th</sup>

**What this means:** This is where the wound lives. A score this low isn't just a number — it's a signal that something here needs attention before it keeps showing up in every relationship you have. This is the place to start.

## Clinical Flags & Considerations

---

### UNRESOLVED TRAUMA — HIGH SEVERITY

Elevated ACE score with limited processing. Avoidance patterns detected in emotional regulation.

*Individual Age Regression Therapy recommended as priority intervention.*

### ATTACHMENT INSECURITY — HIGH SEVERITY

Anxious attachment pattern with fear of abandonment. Impacts communication and emotional regulation.

*Attachment-focused individual sessions recommended.*

# Clinical Pathway Recommendation

RECOMMENDED STARTING POINT

## The DoLoveBetter Cohort

A structured 6-week group programme that addresses the beliefs, biases, and patterns that shape how you show up in relationships. Whether you're single, dating, or in a partnership, this cohort gives you the foundation to recognise your patterns before moving into individual therapy.

INDIVIDUAL

**R6,000**

Full cohort — group learning with personal application

COUPLE

**R9,000**

Both partners — shared language, shared transformation

PHASE 1

### Foundation & Safety

Weeks 1-3

Breakthrough Session

Target: Assessment review and goal setting

**R2,700**

Age Regression Therapy

Target: Core trauma processing

**R4,000**

PHASE 2

### Deepening & Integration

Weeks 4-8

Attachment-Focused Session

Target: Pattern awareness and repair

**R2,700**

Emotional Regulation Session

Target: Somatic tools and nervous system regulation

**R2,700**

Values & Vision Session

Target: Life direction clarity

**R2,700**

PHASE 3

### Maintenance & Growth

Weeks 9-12

Maintenance Session

Target: Relapse prevention and skill consolidation

**R2,000**

Peak Performance Session  
Target: Thriving beyond healing

**R2,700**

**ESTIMATED TOTAL INVESTMENT**

Across all recommended phases (excluding cohort)

Age Regression Therapy sessions are R4,000 each for deeper trauma work. Breakthrough & Maintenance sessions are R2,700 each. The DoLoveBetter Cohort is billed separately.

**R19,500**

## Action Items & Next Steps

---

### Immediate Actions

- ☐ Review this report in a calm, uninterrupted setting
- ☐ Reflect on which findings resonate with your experience
- ☐ Book a discovery call with LOVEBETTER by FOLA
- ☐ Begin journaling about your identified growth areas

### Pre-Session Journal Prompts

1. What did I learn about myself from this assessment that surprised me?
2. What pattern do I notice repeating in my relationships?
3. What is one thing I am willing to change or work on starting today?
4. What support do I need to feel safe in this process?

# Appendix

---

## Scoring Methodology

Dimension scores are calculated using weighted domain analysis. Slider-based dimensions use mean score normalised to a 0-100% scale. Categorical dimensions (attachment style, change readiness) use empirically-derived scoring matrices. The overall score applies weighted averages with clinical significance as the weight factor.
